

AMMAR MOHAMMED BASHAR HAFEZ

Riyadh, Saudi Arabia | 0548743547 | engammarhafez@gmail.com

SUMMARY

- Second-year Computer Engineering student at King Khalid University with a perfect GPA of 5.0/5.0, focused on AI, machine learning, embedded systems, and robotics.
- Published research integrating Computer Vision with Deep Reinforcement Learning for HVAC energy optimization; experienced in hackathons, prototyping, and technical presentations.
- Award-winning student: 1st place robotics, 2nd place Eduthon 3 academic advising track, 3rd place ASHRAE/ASME research excellence, and 4th place AI hackathon among 100+ teams.

EDUCATION

Bachelor of Computer Engineering | King Khalid University (KKU), Abha, Saudi Arabia

2024 - Expected 2031

- GPA: 5.0 / 5.0; active member of IEEE KKU Student Branch, ASHRAE KKU, and College of Engineering Club.

TECHNICAL SKILLS

- Programming & Web:** Python, JavaScript, React.js, Node.js, HTML, CSS, responsive web design.
- AI & Data Science:** TensorFlow, PyTorch, Scikit-learn, Deep Learning, Computer Vision, DRL, NumPy, Pandas, Matplotlib, data preprocessing and analysis.
- Engineering:** Arduino, sensor integration, actuator control, line-following robot systems, probability & statistics, calculus, linear algebra.

CERTIFICATIONS

Completed 9 professional certificates in 2025 from Meta, DeepLearning.AI, and University of Michigan via Coursera, including Python for Everybody, Machine Learning Specialization, Mathematics for Machine Learning: Linear Algebra and Calculus, Statistics with Python, Data Analysis with Python, Data Preprocessing and Feature Engineering, Front-End Development with React, and Introduction to Back-End Development.

PROJECTS AND RESEARCH EXPERIENCE

Energy Consumption Optimization Research | King Khalid University

Apr 2026

- Authored a 5-page peer-review-style scientific paper integrating Computer Vision with Deep Reinforcement Learning to optimize HVAC energy consumption in smart buildings.
- Designed and presented a research poster to faculty, staff, and students; modeled adaptive HVAC control strategies for improved energy efficiency.

KKU Athlete-Intelligence - AI Hackathon Project | King Khalid University

Feb 2026

- Developed an intelligent sports analytics solution using AI/ML in a competitive hackathon environment; achieved 4th place among 100+ competing teams.

Line Follower Robot - Robotics Competition | College of Engineering, KKU

May 2026

- Engineered an Arduino-based line-follower robot using infrared sensors and motor control circuits; led the team to 1st place.

HACKATHONS AND AWARDS

- 2nd Place - Eduthon 3 / 3rd Sustainability in Education Hackathon, KKU (2026):** selected among only 30 finalist teams from 190+ applicant teams and 800+ applicants; won 2nd place in the Academic Advising track among 7 teams.
- 3rd Place - ASHRAE KKU x ASME Research Excellence Competition (2026):** recognized for Best Poster and Research Paper.
- 1st Place - Line Follower Robotics Hackathon, College of Engineering, KKU (2026):** led an embedded-systems robotics team to the top position.
- 4th Place - KKU Athlete-Intelligence AI Hackathon (2026):** top-4 finish among 100+ teams in a university-wide AI challenge; also ranked 4th in KKU Chess Hackathon among 20+ contributors.

LEADERSHIP AND PROFESSIONAL ACTIVITIES

Research Collaborator | Computer Engineering Department, KKU

2025 - Present

- Collaborating with the Head of the Computer Engineering Department on AI and embedded-systems research, including literature review, research design, and implementation.

Active Member and Event Organizer | IEEE KKU Student Branch

2025 - Present

- Received a certificate of appreciation from IEEE KKU for active contribution to organizing events as part of the Events Team.

Active Member | ASHRAE KKU Student Branch

2025 - Present

- Received a certificate of appreciation from ASHRAE KKU for active contribution and participation in branch activities.

EXTRACURRICULAR ACTIVITIES

Volunteer Organizer - Inspiring University Event, KKU; Volunteer Organizer - Ajawiid Initiative for Asir Region Development, KKU; Bodybuilding; Table Tennis.
